

Heavy Duty Unit

650 Airwatts

POWERFUL. QUIET. CLEAN.

The image shows a tall, cylindrical central vacuum unit. It has a silver aluminum body with a dark blue band in the middle. The 'airstream' logo is printed in white on the blue band. The unit has a rounded top and several ports and handles on its side.

airstream

The Airstream Model AS650BP-32 Central Vacuum is constructed with beautifully spun aluminum with an added clear coat for extra durability. The soft start motor technology will ensure your Airstream central vacuum has a long system life.

This high performance unit has 650 airwatts of suction power featuring an all metal Tangential 2-Stage Domel Motor. This Domel European designed motor allows the user to vent all of the exhaust air outside. Its heavy duty design is perfect for the Airstream retractable hose system and is built to ensure a long life.

It has hybrid technology a permanent primary filter with a secondary filter bag option. If you choose to use a filter bag, you will have added HEPA filtration to your system to ensure the allergens and pollutants are trapped in the bag for easy removal.

FEATURES:

- Beautifully spun aluminum
- 650 Airwatts Power
- 32 Liter (5 gallon) capacity
- Dual Intake for easy installation
- Self Cleaning Filter
- High Efficiency Disposable Bag
- Soft Start Motor for Extended Life
- Compatible with all Airstream Attachments
- Warranty covers 10 years for parts and 5 years for labor
